TANZANIA BIRD CHECKLIST

List of species recorded in the country along with frequency of occurrence. Table indicates whether each species is globally threatened or endangered according to the IUCN and whether it is migratory, very rare, or accidental in the country. The list is based on available data and may be incomplete.* See sidebar for meaning of location codes and symbols associated with common names.

Compiled using Birds of Kenya and Northern Tanzania, 4th Edition by Dale A. Zimmerman, Donald A. Turner, and David J. Pearson (2013) published by A & C Black (Publishers) Ltd, London, and Princeton University Press, Princeton, New Jersey, USA.
Additional species and information are based on the personal observations of Jon Hall, Donald Turner, and Dale Zimmerman in the Taveta Locality of Kenya/Tsavo, which were begun in the 1970s and 1980's. Subsequent observations have been added by Jon Hall and Donald Turner.
* Species not accepted by Clements, 2012, or IUCN, but we recognize based on the AOC, field observations along with differences in vocalizations, and/or DNA studies. Species in bold are endemic to the Taveta Locality. Species in italics are endemic to the Taveta-Tsavo Ecosystem.
